PROFESSIONAL EXPERIENCE

Ms. Guangzu Xu focuses on the fields of artificial intelligence and data compliance, life sciences and healthcare, and corporate and commercial matters. She has provided legal services to numerous renowned domestic and multinational companies across industries including artificial intelligence, internet technology, pharmaceuticals and healthcare, consumer goods, and culture and entertainment.

In the area of technology and data compliance, Ms. Xu has participated in various projects related to artificial intelligence and data compliance. Her experience includes providing tech companies with support such as data compliance analysis, constructing personal information protection systems, assessing cross-border data transfers, and drafting compliance documents. She has also assisted in conducting legal research and interpreting policies and regulations.

In the area of Life Sciences and Healthcare, Ms. Xu has been involved in legal projects for several biopharmaceutical and medical device enterprises. Her work in this sector includes technology licensing, investment and financing, corporate mergers and acquisitions, building compliance systems, and product regulatory consultation. She also provides clients in the healthcare sector with compliance advice and legal risk analyses.

EDUCATION

Ms. Xu received her Bachelor of Laws degree from Fudan University in 2024. She obtained her LL.M. degree from Hong Kong University in 2025.
