PRACTICE AREAS

- Data protection

PROFESSIONAL EXPERIENCE

Evelyn Yuan has been working at Han Kun Law Offices since 2026, where she focuses on data compliance. She has been deeply involved in a wide range of data compliance service projects, and possess extensive practical experience in the establishment of data compliance frameworks, data compliance gap analysis and rectification implementation, algorithm and AI compliance, cross-border data transfer compliance, overseas business and global data compliance, data compliance design and assessment for products and business operations, data compliance in investment, financing and capital market transactions, as well as personal information protection compliance audits.

Her legal practice spans multiple industries including retail, consumer goods, hospitality, internet, high-tech, cloud computing, life sciences, finance, manufacturing, and automobiles. She has provided professional data compliance services for numerous well-known multinational groups, leading domestic enterprises, listed companies at home and abroad, internet giants, and start-up entities.

Evelyn excels at gaining in-depth insights into industry attributes, product features, and client demands. Leveraging solid practical experience and in-depth market insights, she designs and delivers tailored data compliance solutions that balance commercial rationality with regulatory compliance requirements. She maintains systematic, forward-looking and in-depth understanding of China's cybersecurity and data protection laws and regulations, regulatory trends and industry practices, and is adept at translating compliance mandates into actionable implementation guidelines. Furthermore, Evelyn has conducted in-depth research on data protection laws of the EU, key markets in the Americas, Central Asia, Southeast Asia, Africa and the Middle East, enabling her to help clients build robust compliance safeguards for global business expansion.

Evelyn also keeps pace with cutting-edge data compliance practices in the capital market sector, with profound understanding of the core challenges and key considerations in data compliance services for investment, financing and capital market activities. She provides full-lifecycle data compliance support for enterprises, covering compliance rectification, information disclosure, and regulatory review.
